

DEALERBOOK 2026

La **MISSION** di Lombardo Bikes è semplice quanto ambiziosa: rendere **felici sulle due ruote**. Non si tratta solo di costruire biciclette, ma di creare esperienze che **migliorano la vita delle persone**. Ogni modello nasce per accompagnare famiglie, sportivi e pendolari con **comfort, sicurezza e stile**. La produzione è curata con attenzione **artigianale** e un forte impegno verso la **sostenibilità**, l'inclusione e il benessere del team. La **VISION** guarda lontano: un'impresa solida e responsabile, capace di unire **territorio e innovazione, tecnologia e umanità**. Non insegue il profitto, ma lo considera una naturale conseguenza del valore che genera.

much more than an **ITALIAN STORY.**

Lombardo Bikes' **MISSION** is simple yet ambitious: to bring **happiness through cycling**. It's not just about building bicycles, but creating experiences that **improve people's lives**. Every model is designed to support families, athletes, and commuters with **comfort, safety, and style**. Production combines **artisanal** care with a strong commitment to **sustainability**, inclusion, and employee well-being. The **VISION** is forward-looking: a solid, responsible company that blends **local roots** with **innovation, technology** with **humanity**. Profit is not the goal, but a natural result of the value created.

Bringing joy to every
family through....sustainable,
stylish, Italian-crafted bicycles

SEEING BEYOND VEDERE OLTRE

Dalla **Sicilia** al cuore dell'Europa, Lombardo Bikes è la storia di una visione nata nel **1952** con **Gaspere Lombardo**, fabbro con il sogno di costruire biciclette. In un piccolo borgo rurale, l'azienda cresce con passione, innovazione e spirito di famiglia, fino a diventare un marchio riconosciuto a livello internazionale. Oggi, sotto la guida di Emilio Lombardo, produce oltre **200 modelli** ed esporta in **31 Paesi**. Le sedi produttive, moderne ed ecosostenibili, sono pensate per il benessere delle persone. Con la recente acquisizione di **Cicli Olympia**, Lombardo ha dato vita al più grande **polo produttivo italiano delle due ruote**, portando con sé un'eredità fatta di qualità, ingegno e radici forti.

NOT JUST BIKES.

"Non dire mai che non si può fare"

From **Sicily** to the heart of Europe, Lombardo Bikes is the story of a vision born in **1952**, when **Gaspere Lombardo**, a local blacksmith, dreamed of building bicycles. In a small rural village, the company grew with passion, innovation, and strong family values, becoming an internationally recognized brand. Today, under the leadership of Emilio Lombardo, it produces over **200 models** and exports to **31 countries**. The company's modern, eco-friendly facilities are designed with people's well-being in mind. With the recent acquisition of **Cicli Olympia**, Lombardo has created the largest **Italian-owned bike manufacturing hub**, driven by quality, craftsmanship, and deep local roots.

A WAY OF LIFE.

"Never say that you can't do something"
cav. Gaspere Lombardo

FACTORY LA FABBRICA

Oltre **20.000 mq** di stabilimenti produttivi **eco-sostenibili**, distribuiti su due sedi a Buseto Palizzolo (TP), paese rurale di 3.000 abitanti, incastonato tra le rinomate località balneari di San Vito Lo Capo e Castellammare del Golfo e circoscritto da cave di marmo e parchi eolici.

Facciamo nascere le nostre bici su un'isola e le facciamo arrivare **ovunque**. Ma è riduttivo chiamarla isola: ricca di montagne, coste rocciose, acque cristalline e faraglioni, fondata dal mito... **La Sicilia**, per la varietà dei suoi ecosistemi, è un **micro-continente**!

Nasiamo qui, questa è la nostra terra a cui dobbiamo il **sapere** e la **passione** che ci guida in ogni scelta. È qui che vengono **progettate** e **costruite**, fra gli scenari più vari, le bici Lombardo.

*"Qualcuno l'ha definita
imprenditoria eroica"*

*"Someone called it
heroic entrepreneurship"*

More than **20,000 square** meters of **eco-friendly** production facilities are spread across two locations in Buseto Palizzolo (TP), a rural town of 3,000 inhabitants, nestled between the well-known seaside resorts of San Vito Lo Capo and Castellammare del Golfo, and surrounded by marble quarries and wind farms.

We make our bikes on an island and deliver them **everywhere**. But calling it an island would be an understatement: rich in mountains, rocky coasts, crystalline waters, and sea stacks, steeped in myth... Sicily, with its diverse ecosystems, is a micro-continent!

We were born here. This is our land, to which we owe the **knowledge** and **passion** that guide us in every choice. It is here that Lombardo bikes are **designed** and **built**, set against the most varied landscapes.

PAINTING LE LINEE DI VERNICIATURA

Verniciare una bici significa **rifinirla, migliorarla e proteggerla**. Per questo motivo investiamo da sempre in questa fase produttiva interna.

Utilizziamo principalmente **vernici a polvere**, con processi che non richiedono l'utilizzo di solventi potenzialmente dannosi per l'ambiente; **processi sia manuali che automatici**, per **grandi lotti** in serie o per **limited edition** e prototipi, che possano portare ad una continua evoluzione verso nuovi sbocchi.

Le cabine di pretrattamento e verniciatura, i forni di asciugatura e di polimerizzazione, i relativi trasportatori, sono implementati con lo scopo di migliorare la **qualità** e la **sicurezza** dell'ambiente di lavoro, consentendo un elevato risparmio energetico ed una **eccellente qualità** del prodotto finito.

Painting a bike means **finishing** it, **enhancing** it, and **protecting** it. For this reason, we have always invested in this internal production phase.

We mainly use **powder paints** and processes that do not require solvents potentially harmful to the environment. These processes, both **manual** and **automatic**, are applied to **large production** batches as well as **limited editions** and prototypes, enabling continuous development and innovation.

The pre-treatment and painting booths, drying and polymerization ovens, and associated conveyors are designed to improve both product **quality** and workplace **safety**, while ensuring high energy efficiency and **excellent final results**.

WHEELS IL REPARTO PRODUZIONE RUOTE

L'imbastitura della ruota, intreccio e montaggio dei **raggi** sul **cerchio**, sono operazioni effettuate con cura in maniera manuale, coadiuvate dall'ausilio di **sofisticati macchinari**.

Effettuato l'assemblaggio, per MTB, strada, gravel o e-bike che siano, la ruota viene montata su una linea automatizzata per eseguire la **tensionatura** dei raggi secondo standard e tolleranze stabilite, misurate con **specifici software**.

La **posa degli adesivi**, così come l'installazione di camera d'aria e copertone - e ove previsto, kit tubeless - viene effettuata **manualmente** da un operatore.

*Begin with a need,
to achieve the beauty.*

*Partire da una necessità,
per arrivare alla bellezza.*

The basting of the wheel, weaving and assembly of the **spokes** on the **rim**, are operations carried out with care by hand, assisted by the aid of sophisticated machinery.

Once the assembly has been carried out, whether for MTB, road, gravel or e-bike, the wheel is mounted on an automated line to perform the **tensioning** of the **spokes** according to established standards and tolerances, measured with **specific software**.

The **application of the adhesives**, as well as the installation of the inner tube and clincher - and where applicable, the tubeless kit - is carried out **manually** by an operator.

CENTRO STILE

AREA 52

DESIGN RESEARCH AND DEVELOPMENT

Come nasce una Lombardo? Nasce con visione, passione, **immaginazione** e **originalità** che da sempre contraddistinguono i nostri canoni per la **progettazione** ciclistica. In **Area52** andiamo oltre, diamo forma al futuro che ancora non c'è!

How was a Lombardo Bike born? Surely with vision, **passion**, **imagination** and originality that have always distinguished our standards for cycling **design**. In **Area 52** we go further, we shape the future that does not exist yet!

LAB 52

OFFICINA WORKS AND PROTOTYPING

Ci piace sporcarci le mani perché amiamo la **meccanica** e l'**estetica**. L'officina del **Lab52** è specializzata nel montaggio, nelle sperimentazioni, nel tuning su **prototipi** o esemplari One-Off, veri specchi delle personalità dei nostri tester/riders.

We like to get our hands dirty because we love **engineering** and **aesthetics**. The **Lab 52** workshop is specialized in assembly, experimentation, tuning **prototypes** or One-Off samples, that are mirrors of the personalities of our testers / riders.

A CA DE MY 52

SCUOLA EDUCATION AND TRAINING

È un luogo fisico e virtuale, una **scuola** d'impresa, dove si mettono in condivisione **saperi**, **valori**, comportamenti e strategie per la crescita dei manager, dei **giovani talenti**, dei collaboratori interni.

It is a physical and virtual place, a business **school**, where **knowledge**, **values**, behaviours and strategies are shared for the growth of managers, **young talents** and internal collaborators.

WE ARE FAMILY

CAPITALE UMANO

BABY SCHOOL AND GYM FLOOR

Lombardo Bikes è stata la prima aziende italiane del settore ad istituire un **nido aziendale**. Intratteniamo e formiamo i figli dei nostri collaboratori nella Lombardo Baby School, con video, animazioni, giochi educativi. E, in primis, muoviamo insieme le **prime pedalate!** Lombardo Bikes è attenta al **benessere psicofisico** delle proprie risorse umane, gli stabilimenti sono dotati di una **palestra!**

Lombardo Bikes was one of the first companies in the industry to establish a **company nursery**. We entertain and educate the children of our collaborators at the Lombardo Baby School through videos, animations, and educational games. First and foremost, we share their very **first ride** together! Lombardo Bikes also takes care of the physical and mental well-being of its team: our facilities are equipped with a **gym**.

TEAM BUILDING EXPERIENCE

L' Azienda è impegnata nel promuovere l'**integrazione** e migliorare la comunicazione. Sono proposte attività che mirano a far diventare un gruppo di persone un team fortemente coeso; possono essere di tipo formativo, educativo, d'intrattenimento o **momenti esperienziali**. Allo stesso tempo, Lombardo Bikes incoraggia e investe sul **miglioramento personale** dei singoli individui.

The Company is committed to promoting **integration** and improving communication. Activities are designed to transform a group of people into a strongly cohesive team. These activities can be training, educational, recreational, or **experiential**. At the same time, Lombardo Bikes encourages and invests in the **personal growth** of each individual.

WELFARE SAFETY MINDED

L' Azienda si assume una **responsabilità sociale** ad ampio raggio, per contribuire a formare i cittadini di domani. Lombardo Bikes intende **supportare** le proprie **risorse umane**, risolvendo problematiche, facilitando relazioni, mettendo il lavoratore in condizione di **dare il meglio** all'Azienda che lo tratta come una **risorsa da gratificare**, da valorizzare e premiare.

The Company assumes a broad **social responsibility**, helping to train the citizens of tomorrow. Lombardo Bikes aims to **support** its employees, **solve problems**, and facilitate relationships, enabling them to **give their best** while being treated as valuable **resources**—recognized, appreciated, and rewarded.

LET'S GREEN

SENSIBILIZZIAMO MAKE A CHANGE

L'Azienda crede fermamente che il primo passo per raggiungere l'obiettivo di **vivere in un modo più sostenibile**, sia la sensibilizzazione e la comunicazione. Lombardo Bikes ha da decenni adottato un mindset sostenibile con azioni, processi ed **obiettivi green**. La sostenibilità per Lombardo Bikes non è solo un obiettivo, ma parte integrante del modo di agire.

The Company firmly believes that the first step to achieve the goal of **living in a more sustainable way** is generating awareness and promoting communication. Lombardo Bikes has adopted a **sustainable mindset** for decades with green actions, processes and objectives. Sustainability for Lombardo Bikes is not just a goal, but an integral part of the way we act.

DIFFERENZIAMO RECYCLING

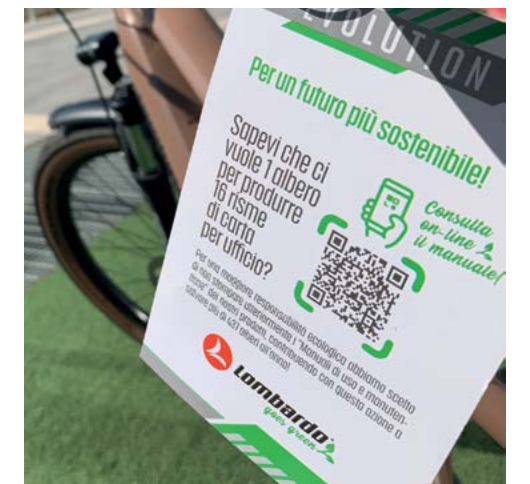

L'Azienda **differenzia e smaltisce** in modo corretto scarti e rifiuti. **Sensibilizza** ogni collaboratore a ragionare in termini sostenibili, per rendere ogni processo **più green** ed efficiente, riducendo il consumo di risorse e **valorizzando** gli scarti. L'Azienda riusa, ove possibile i materiali, prediligendo imballaggi **sostenibili** e riciclati e invitando gli stakeholders a fare altrettanto.

The Company properly **separates and disposes** of scraps and waste. We **raise awareness** among all employees to think sustainably, making every process **greener** and more efficient while maximizing the **value** of scraps. The Company reuses materials whenever possible, favors **sustainable** and recycled packaging, and encourages stakeholders to do the same

FOTOVOLTAICO RENEWABLE ENERGIES

Investiamo in innovazione tecnologica, partnership strategiche e **impiantistica** all'avanguardia. Il piano industriale 2020-2025 è focalizzato in gran parte al rafforzamento della produzione energetica da **fonti green**, in particolare di **energia solare** derivante dal **fotovoltaico**; già dal 2023 il 100% dell'energia utilizzata deriva da quest'ultima.

We invest in technological **innovation**, strategic partnerships, and cutting-edge systems. The 2020–2025 business plan is largely focused on increasing energy production **from renewable sources**, particularly **solar energy** generated by **photovoltaic systems**. Since 2023, 100% of the energy we use comes from this source

USAGE TYPES

	5.0	MTB GRAVITY FREERIDE DOWNHILL	La scelta della misura è soggettiva e dipende dalle variabili anatomiche dell'utilizzatore. Le immagini del presente catalogo sono da considerarsi indicative. L'Azienda si riserva il diritto di modificare colori e componenti in ogni momento e senza preavviso.
	4.0	MTB TRIAL ALL MOUNTAIN ENDURO	Comprendono l'uso previsto descritto nei livelli 1, 2, 3 e 4. Per terreni difficili e scoscesi. Ideali per qualsiasi tipo di salti con successivi atterraggi o pendii e velocità fino a 40 km/h. Andare in bicicletta in queste condizioni dipende in gran parte dall'esperienza e dalle capacità del ciclista.
	3.0	MTB CROSS COUNTRY MARATHON	Rientrano nella destinazione d'uso descritta nei livelli 1, 2 e 3. Adatte per un uso limitato in discesa, fino a una velocità di 40 km/h, purché i salti non superino l'altezza di 120 cm. Andare in bicicletta in queste condizioni dipende in gran parte dall'esperienza e dalle capacità del ciclista.
	2.0	CITY TREKKING GRAVEL MOUNTAIN BIKE CASUAL	Rientrano nella destinazione d'uso descritta ai livelli 1 e 2. Adatte a percorsi non tracciati e terreni più tecnici. Salti fino ad un'altezza di 60 cm sono inclusi in questo campo di utilizzo.
	1.0	CITY ROAD RACE TIME TRIAL TRIATHLONL	Per strade non asfaltate e sentieri di ghiaia con percorsi ad inclinazione moderata, oltre all'uso previsto dal livello 1. Il contatto con terreno irregolare non pone alcun problema. Le ruote potrebbero perdere il contatto con la strada. I salti non devono superare l'altezza di 15 cm.
		KIDS BIKES	Per strade asfaltate o lisce. Le ruote potrebbero perdere il contatto con la strada.
			Destinate ai bambini, sotto la supervisione di un adulto; non devono essere utilizzate da giovani o adulti. I bambini dovrebbero sempre pedalare lontano dal traffico stradale e da altri pericoli o ostacoli e in base alle loro capacità individuali.

The choice of bike size is personal and depends on the anatomical characteristics of each customer. The images in this catalog are for illustrative purposes only. The Company reserves the right to change colors and components at any time without notice.
Includes the kind of usage use of levels 1, 2, 3, 4. Ideal for rough and difficult terrains and particularly suited for any kind of jumps with subsequent landings and speeds up to 40 km/h. Riding in these conditions depends heavily on the rider's experience and skills.
The choice of bike size is personal and depends on the anatomical characteristics of each customer. The images in this catalog are for illustrative purposes only. The Company reserves the right to change colors and components at any time without notice.
Includes the kind of usage use of levels 1, 2. Ideal for underdeveloped and technical terrain and jumps up to a height of 60 cm.
This category refers to bicycles that can be used on unpaved roads and gravel paths as well ad trials with moderate inclines/slopes in addition to the intended use of level 1. Contact with uneven ground is not a problem. Tyres may lose contact with the road. Jumps must not exceed a height of 15cm.
Ideal for paved and smooth road. The wheels may lose contact with the road.
Intended exclusively for children, under the supervision of an adult. They must not be used by young adults or adults. Kids should always ride far from traffic and from other dangers or obstacles and in accordance to their skills.

SIGNUM

BRAND OF EXCELLENCE

Signum è il marchio esclusivo di Lombardo Bikes, nato dalla passione per la bicicletta e dall'impegno verso la **qualità senza compromessi**. Ogni prodotto firmato Signum, dalle ruote ai mozzi, dalle pedivelle ai tubi sella, dai manubri alle forcelle, fino agli spacer, è **progettato con cura artigianale** e attenzione al dettaglio, per offrire prestazioni eccezionali e un'affidabilità senza pari.

Signum is the exclusive brand of Lombardo Bikes, born from a passion for cycling and a commitment to **uncompromising quality**. Every Signum product, from wheels to hubs, cranks to seat posts, handlebars to forks, and even spacers, is **designed with artisanal care and attention** to detail to deliver exceptional performance and unparalleled reliability.

BOSCH

ePowered

The smart
system

Divertimento illimitato: le drive unit, i display e le batterie di Bosch eBike Systems conquistano i ciclisti per l'elevata **qualità** tecnica e formano un **team perfetto**. I singoli componenti creano insieme un sistema perfettamente armonizzato che garantisce un livello elevato di efficienza, **sicurezza** e comfort. Per divertimento e flow eccezionali sempre e ovunque.

Unlimited Fun: Bosch eBike Systems' drive units, displays, and batteries captivate cyclists with their high technical **quality** and form a **perfect team**. The individual components together create a perfectly harmonized system that guarantees a high level of efficiency, **safety**, and comfort. For exceptional fun and flow, anytime and anywhere.

THE SMART SYSTEM SMART SYSTEM + APP + PERFORMANCE + OVER THE AIR UPDATES + USER EXPERIENCE + NEW RIDING MODES

Il sistema intelligente ti porta nel futuro digitale dell'eBike. L'app eBike Flow, la batteria, il display, l'unità di comando e la drive unit sono completamente connessi in rete nel sistema intelligente. Attraverso aggiornamenti over-the-air periodici, vengono continuamente aggiornati e migliorati con nuove funzioni. È possibile controllare tutte le funzioni del sistema intelligente tramite l'app eBike Flow.

The smart system points the way to the digital future for eBikes. The eBike Flow app, the battery, the display, the control unit, the drive unit and the Bosch eBike ABS are fully networked in the smart system. Regular over-the-air updates keep them up to date and add new features. You can control all functions of the smart system via the eBike Flow app.

BOSCH APP EBIKE FLOW

Nel sistema intelligente, l'app eBike ti connette alla tua eBike e connette a sua volta la tua eBike al mondo digitale. La tua eBike rimane aggiornata e viene migliorata di continuo con nuove funzioni tramite gli aggiornamenti. Questo rende la tua guida in eBike ancora più divertente.

The eBike Flow app connects you with the eBike and your eBike with the digital world. With over-the-air updates, you can always keep your components updated with the eBike Flow app and constantly expand the range of functions. This makes eBike riding even more fun.

OVER THE AIR UPDATES

Scarica nuove funzioni e aggiornamenti per componenti come la batteria o il motore per il 5 sistema intelligente con l'app eBike Flow e inviali alla tua eBike tramite Bluetooth. In questo modo, la tua eBike rimane sempre aggiornata e tu hai più opportunità.

Download new functions and updates for components such as the battery or the drive unit with the eBike Flow app and transfer them to your eBike via Bluetooth. This way, it not only always stays up to date, but also continuously gains useful capabilities.

EBIKE LOCK

Dopo l'installazione attraverso l'app eBike Flow, lo smartphone funge da chiave digitale per la disattivazione del supporto del motore alla pedalata.

After installing the eBike Flow app, the smartphone acts as your digital key for deactivating motor support.

BOSCH

ePowered

GUIDED NAVIGATION

Con l'app eBike Flow disponi di due opzioni di navigazione: utilizza lo smartphone sul manubrio o e pianifica il tuo percorso nell'app eBike Flow. Seleziona il profilo percorso idoneo alla tua situazione di guida.

ADJUST PERFORMANCE VALUES

Determina personalmente i valori delle prestazioni della Drive Unit e impostali nelle modalità di guida definite dall'utente dell'appa eBike Flow. Ad esempio, potrai eseguire più facilmente i sorpassi o accelerare con più rapidità.

DRIVE UNITS

Performance Line è il perfetto tuttofare, sia nella vita quotidiana che per le gite nella natura. Con una coppia massima di 75 Nm e 600 W di potenza, mette a disposizione un supporto affidabile quando si percorre il tragitto casa-lavoro o si pedala intorno al lago. La drive unit si adatta con delicatezza ed in modo quasi silenzioso al tuo stile di guida.

With the eBike Flow app, you have two options for navigation: Use your smartphone on the handlebar or your Kiox 300 and plan your route in the Ebike flow app. Chose the route profile that fits your riding situation.

Determine the performance values of your drive unit yourself – and set them in the custom riding modes of the eBike Flow app. For example, you can overtake more easily or accelerate faster.

The Performance Line is your perfect all-rounder – for everyday life and excursions to the countryside. With up to 75 Nm of torque and 600W of power, it provides you with reliable support when commuting or just riding around the lake. The performance adapts sensitively and almost silently to your riding style.

Il nuovo Performance Line CX (BDU38) porta la dinamica di guida e l'agilità a un nuovo livello. È potente, leggero e silenzioso. Reagisce in modo più sensibile che mai ai tuoi input grazie al miglioramento dei segnali dei sensori. La drive unit fa esattamente ciò che si desidera, in modo sensibile, controllato e diretto. Offre una sensazione di pedalata naturale.

The new Performance Line CX (BDU38) takes riding dynamics and agility to a whole new level. It is powerful, light and quiet. The Performance Line CX (BDU384Y) is more responsive than ever to your input. The sensor signals have been reinterpreted and improved. The drive unit does exactly what you want it to do – it is responsive, controlled, and direct. That is a natural riding experience.

Supporto dinamico per una sensazione di pedalata naturale durante le tue escursioni in mountain bike. Dynamic support for a natural pedaling sensation during your mountain bike excursions.

La coppia massima di 100Nm migliora sensibilmente il comportamento di marcia. The maximum torque of 100Nm significantly improves the handling.

Il supporto si adatta al tuo stile di guida ed è ideale per i tour di trekking sportivo. The mount adapts to your riding style and is ideal for sporty

La performance line è completamente connessa in rete nel sistema intelligente e rimane aggiornata anche dopo l'acquisto. The performance line is fully networked in the intelligent system and remains up to date

RIDING MODES AND NEW AUTO & HILL HOLD

Regolazione automatica del supporto in caso di calo di velocità a causa di salite o di vento contrario improvviso. La funzione Hill Hold impedisce che l'eBike arretri accidentalmente su un pendio ripido o su scale, completando così il supporto della camminata assistita intelligente. L'Hill Hold impedisce all'eBike di arretrare per circa dieci secondi, senza che serva azionare il freno.

Automatic adjustment of support in response to a drop in speed, due to climbs or sudden headwinds. The Hill Hold function prevents the ebike from accidentally falling on a steep slope or on stairs,The Hill Hold prevents the ebike from pulling back for about ten seconds, without needing to apply the brake.

NEW SPRINT

Supporto dinamico che cresce all'aumentare dell'intensità della pedalata per sprint veloci e salite ripide. Dynamic support that grows as pedaling intensity increases for fast sprints and steep climbs.

RACE

Dinamica senza compromessi e massimo supporto dalla partenza fino alla meta per le corse eMTB più difficili. Uncompromising dynamics and maximum support from start to finish for the toughest eMTB rides.

CARGO

Massimo supporto per le eCargo fino al 400% delle prestazioni del ciclista e un comportamento ottimale in partenza anche a pieno carico. Maximum support for eCargos up to 400% of the rider's performance and optimal starting behavior even when fully loaded.

TURBO

Supporto continuo anche per i casi di risparmio energetico con pedalata naturale durante i tour sportivi. Continuous support also for energy saving cases with natural pedaling during sports tours.

AUTO

Regolazione automatica del supporto di calo di velocità nelle salite o di vento improvviso. Automatic adjustment of the support for speed drops on slopes or sudden winds.

eMTB

Supporto dinamico per una sensazione di pedalata naturale durante le tue escursioni in mountain bike. Dynamic support for a natural pedaling sensation during your mountain bike excursions.

SPORT

Supporto potente per una pedalata universale sia per una pedalata sportiva che per il tratto casa lavoro. Powerful support for universal pedaling for both a sporty ride and the home-to-work stretch.

TOUR+

Supporto continuo anche per i casi di risparmio energetico con pedalata naturale durante i tour sportivi. Continuous support also for energy saving cases with natural pedaling during sports tours.

TOUR

Supporto uniforme per tour con elevato livello di autonomia. Uniform support for tours with a high level of autonomy.

NEW ECO+

Supporto soltanto in caso di carichi pesanti. Ideale per tutti coloro che saltuariamente desiderano pedalare senza il supporto del motore alla pedalata. Drive unit only provides support under heavier loads. Ideal for anyone who sometimes wants to ride without motor support

ECO

Supporto ridotto con massima efficienza per prestazioni più elevate. Reduced support with maximum efficiency for higher performance.

OFF

Nessun supporto, tutte le funzioni del display sono accessibili. No support, all display functions are accessible.

Con uno stile di guida sportivo e un'elevata frequenza di pedalata, la nuova Performance SX ti supporta con picchi di potenza del motore fino a 600 watt e una coppia massima di 55 Nm. Con un peso di circa 2 kg, la Performance Line SX è l'unità di trazione più leggera del mondo Bosch Smart System. Affronta le curve in modo dinamico con la tua eGravel: la Performance Line SX ne riduce il peso complessivo, garantisce maggiore agilità ed è ideale per gli amanti di uno stile di guida sportivo. Inoltre, questa drive unit compatta scompare elegantemente nella zona delle pedivelle dell'eBike, conferendo-le un design simile a quello di una bicicletta tradizionale.

With a sporty driving style and high pedaling frequency, the new Performance SX supports you with engine power peaks of up to 600 watts and a maximum torque of 55 Nm. Weighing approximately 2 kg, the Performance Line SX is the lightest drive unit of Smart System. Take on curves dynamically with your eGravel: the Performance Line SX reduces its overall weight, ensures greater agility and is ideal for lovers of a sporty driving style. Furthermore, this compact drive unit elegantly disappears into the crank area of the eBike, giving it a design similar to that of a conventional bicycle.

FINO A 600 WATT
Massima potenza in dimensioni compatte. UP TO 600 WATTS
Maximum power in compact dimensions.

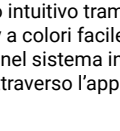

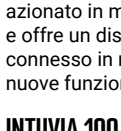

CIRCA 2 KG
La nostra unità di trazione più leggera, installata in modo discreto. ABOUT 2 KG
Our lightest, unobtrusively installed drive unit.

MAX 55 NEWTON-METRI
pedalare velocemente con un supporto potente. MAX 55 NEWTON-METERS
pedal fast with powerful support.

MODALITA' SPRINT
Per la guida sportiva con eGravel bike e eUrban bike. SPRINT MODE
For sports riding with eGravel bikes and eUrban bikes.

KIOX 300

Kiox 300 è il display per il sistema intelligente e il tuo compagno di fitness intelligente e resistente per i tour sportivi. Può essere azionato in modo intuitivo tramite il LED Remote, è compatto e offre un display a colori facile da leggere. Completamente connesso in rete nel sistema intelligente, riceve continuamente nuove funzioni attraverso l'app eBike Flow.

Kiox 300 is the ideal display for the smart system and an intelligent and robust companion for your sporty rides. It can be operated intuitively via the LED Remote, is compact and offers an easy-to-read splash-proof and dust-proof colour display. Fully connected in the smart system, it is continuously supplied with new functions through the eBike Flow app.

INTUVIA 100

Con Intuvia 100 avrai a disposizione un display intuitivo e sempre pronto alla partenza. Grazie ai caratteri grandi, il display è particolarmente chiaro e, insieme all'indicatore della marcia consigliata, ti garantisce più sicurezza e comfort durante la guida.

Intuvia 100 gives you an intuitive display which you can start riding immediately. Thanks to the large font, the display is particularly clearly designed and, together with the shift recommendation, gives you more safety and comfort when riding.

PURION 200

Purion 200 è montato sul lato sinistro del manubrio, nelle immediate vicinanze del pollice. Grazie alla sua forma curva, questa combinazione di unità di comando e display si adatta perfettamente al manubrio. L'alta risoluzione, il sensore di luminosità e i simboli di facile comprensione assicurano una rapida lettura e una maggiore comprensione delle informazioni. Oltre alle funzioni di base, come l'accensione e lo spegnimento dell'eBike e dell'illuminazione, è possibile, attivare la camminata assistita intelligente. Cinque tasti, un display e numerose opzioni: Purion 200 è connesso al sistema intelligente e collega l'eBike all'app eBike Flow.

KIOX 400C

KIOX 400C è il nuovo display integrato al telaio ed installato in modo permanente nel tubo orizzontale. Questo significa che è protetto in modo ottimale da urti e colpi, anche negli stage downhill più veloci. KIOX 400C mostra sempre esattamente le informazioni di cui hai bisogno con una luminosità di 1.000 cd/m2. Se stai pedalando in salita, puoi vedere la tua potenza, cadenza ed i metri di altitudine percorsi.

LED REMOTE

Il LED Remote collega l'eBike all'app eBike Flow. Consente di accedere facilmente a tutti i dati di guida importanti ed è intuitivo; le mani restano sul manubrio in modo sicuro. Cambia le modalità di marcia, usa la camminata assistita e aziona il display o il Ride screen del tuo smartphone. Grazie al sistema intelligente, il LED Remote ti consente di effettuare in modo autonomo gli aggiornamenti per l'eBike.

PURION 400

Purion 400 per concentrarti completamente sul trail. Grazie alla risoluzione di 320 x 160 pixel, basta uno sguardo al manubrio per acquisire rapidamente i dati di guida. La posizione intelligente nel triangolo tra manubrio e attacco manubrio consente di assorbire urti e impatti. Inoltre, l'alloggiamento è progettato per essere protetto da spruzzi d'acqua e da polvere.

Control unit with compact colour display and fully networked in the smart system: that's the Purion 200. The all-in-one solution ensures an uncluttered handlebar, is in close proximity to the thumb and offers a razor-sharp display of ride data as well as simple, ergonomic control of all eBike functions. Combine the Purion 200 with an additional display – for even greater convenience. Purion 200 supports the following languages: German and English. More languages will be added from 2024.

KIOX 400C è il nuovo display integrato al telaio ed installato in modo permanente nel tubo orizzontale. Questo significa che è protetto in modo ottimale da urti e colpi, anche negli stage downhill più veloci. KIOX 400C mostra sempre esattamente le informazioni di cui hai bisogno con una luminosità di 1.000 cd/m2. Se stai pedalando in salita, puoi vedere la tua potenza, cadenza ed i metri di altitudine percorsi.

The LED Remote connects your eBike with the eBike Flow app. It makes it easy to access all important ride data and is intuitive to use your hands remain safely on the handlebars. Change riding modes, use the smart walk assistance function and operate our display or the ride screen on your smartphone. Thanks to the smart system, the LED Remote allows you to perform updates for the eBike.

Purion 400, you can concentrate fully on the trail. Thanks to the resolution of 320 x 160 pixels, a glance towards the handlebar is sufficient to quickly take note of your riding data. The ingenious position in the triangle formed by the handlebar and stem absorbs bumps and impacts. In addition, the housing is designed to be protected against water splash and dust.

BATTERY BY BOSCH

Le batterie Bosch forniscono energia in modo efficiente e continuo. Grazie alle loro eccezionali prestazioni, a una lunga durata e all'intelligente sistema di gestione della batteria, le batterie agli ioni di litio di Bosch sono tra le più moderne reperibili sul mercato. Il sistema di gestione delle batterie di alta qualità agli ioni di litio rileva le potenziali fonti di guasto e protegge le celle dal sovraccarico.

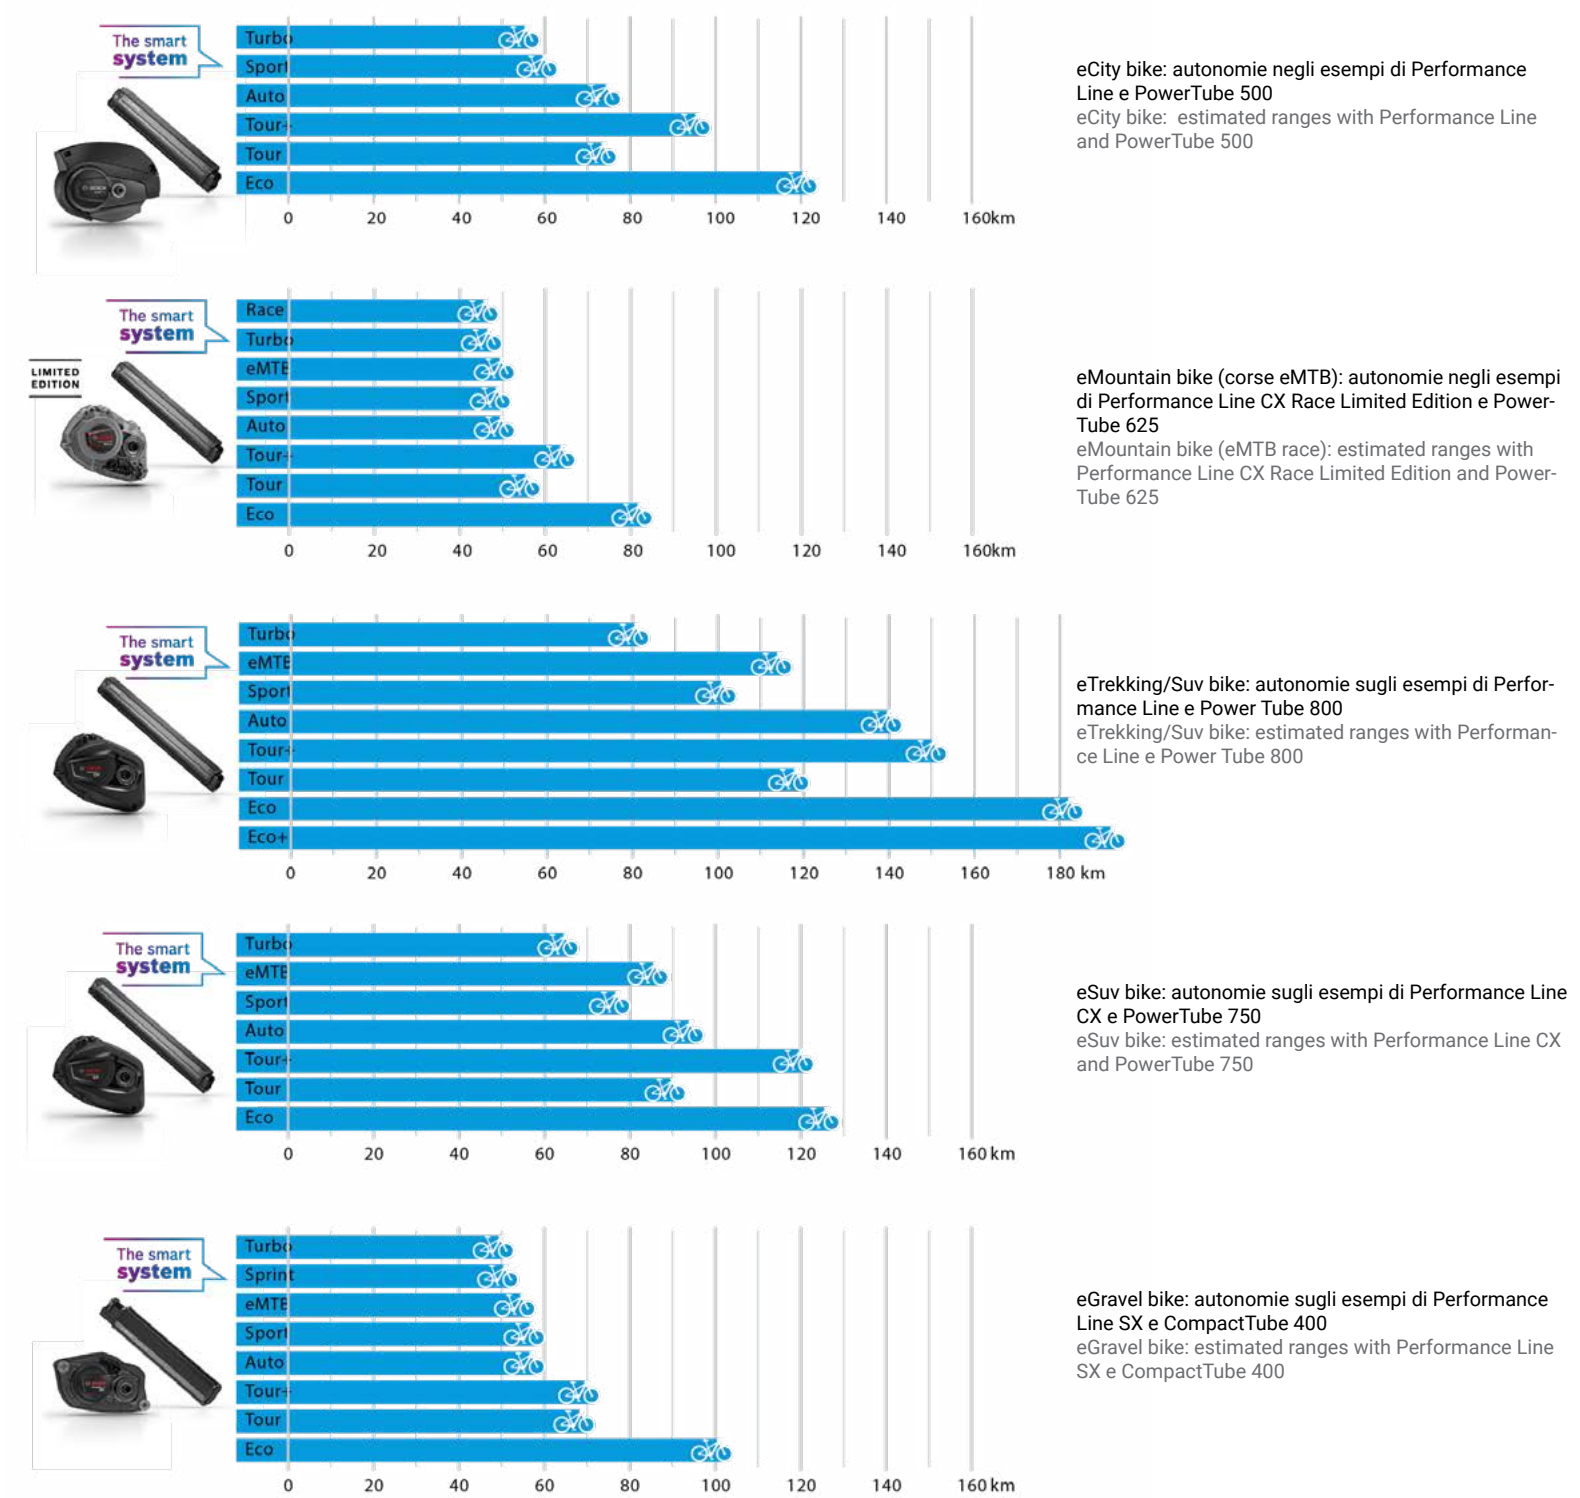

Bosch batteries are an efficient, long-life energy source. Thanks to their significant mileage, long service life and intelligent battery management system, Bosch lithiumion batteries are among the most modern on the market. Bosch eBike batteries combine low weight with ergonomic design and simple handling. The Battery Management System of the highquality lithium ion batteries detects potential sources of error and protects cells from overloading.

OFFICIAL
BIKE
MANUFACTURER
TEAMS

Sempre più **Giro-E Enel** per noi di Lombardo Bikes: all'edizione **2025** abbiamo portato 38 e-bikes come Official E-Bike Manufacturer della manifestazione. Abbiamo fornito quattro team ufficiali – **Enel, RCS Sport, RCS Sport & Events** con capitano Giuseppe Bica, e **ANCI** guidato da Claudio Chiappucci – oltre a diversi daily team, tra cui il Mission: Impossible – The Final Reckoning, capitanato da Marco Melandri con ospiti i The Jackal.

Per l'occasione abbiamo presentato la **Thunder Marble**, la nostra nuova e-gravel in edizione speciale. Inoltre siamo stati presenti al **Green Fun Village**, dove abbiamo intrattenuto i più piccoli con giochi dedicati alla mobilità sostenibile.

More and more **Giro-E Enel** for us at Lombardo Bikes: at the **2025** edition we brought 38 e-bikes as the event's Official E-Bike Manufacturer. We supported four official teams – **Enel, RCS Sport, RCS Sport & Events** led by Giuseppe Bica, and **ANCI** guided by Claudio Chiappucci – along with several daily teams, including Mission: Impossible – The Final Reckoning, captained by Marco Melandri and featuring special guests The Jackal.

On this occasion we unveiled the **Thunder Marble**, our new special-edition e-gravel. We also joined the **Green Fun Village**, where we entertained kids with games dedicated to sustainable mobility.

MY 2026
MODEL YEAR

L'e-bike non è solo trasporto: è libertà, scoperta, emozione. Ogni tragitto diventa un modo nuovo e autentico di vivere la città.

An e-bike is more than transport: it's freedom, discovery, emotion. Every ride becomes a new, authentic way to experience the city.

GARANZIA 3 ANNI
3 YEARS WARRANTY

I rivenditori Lombardo Bikes hanno come priorità assoluta la soddisfazione del cliente, pertanto offrono oltre l'assistenza, consigli e manutenzione proattiva durante l'intero ciclo di vita del prodotto. Le immagini del presente catalogo sono da considerarsi indicative. L'Azienda si riserva il diritto di modificare colori e componenti in ogni momento e senza preavviso.

Cicli Lombardo SpA garantisce tutti i propri prodotti per 2 anni dalla data d'acquisto presso uno dei rivenditori Lombardo autorizzati. Se il cliente è un operatore commerciale (società di noleggio/sharing, servizi di trasporto, clienti con partita IVA ...) il periodo di garanzia è di 6 mesi. È possibile estendere la garanzia di un ulteriore anno registrando il proprio prodotto sul sito www.lombardobikes.com entro i 15 giorni successivi alla data d'acquisto. Dall'estensione sono esclusi tutti i componenti elettronici sui quali vale la garanzia legale della casa produttrice. Il produttore è esonerato da ogni responsabilità ed obbligo per qualsiasi incidente a persone o cose che possa verificarsi per o durante l'uso del veicolo.

Cicli Lombardo SpA può rispondere della sostituzione e/o riparazione gratuita di componenti inutilizzabili o inefficienti (o dell'intero prodotto) previa richiesta presentata dal rivenditore presso cui è stata acquista la bike e ove risulti oggettiva una non conformità imputabile a difettosità di materiale o di lavorazione. Se non fosse possibile rivolgersi al rivenditore originario, è possibile rivolgersi ad un altro dei rivenditori autorizzati di zona esibendo la prova d'acquisto. In questo caso il rivenditore ha la facoltà di chiedere un rimborso per i costi di trasporto e manodopera. In caso di necessario intervento di garanzia lontano dal territorio nazionale d'acquisto, ed in caso di impossibilità di risolvere il reclamo in loco, il cliente farà pervenire a proprie spese il ciclo presso il rivenditore autorizzato Lombardo dove il prodotto è stato acquistato. Ogni richiesta al rivenditore deve essere corredata dalla presentazione di scontrino fiscale pena l'impossibilità di reclamare la garanzia. L'esercizio e il riconoscimento della garanzia su un componente, o sull'intero prodotto, non ne rinnova il periodo di copertura: il termine di scadenza rimane quello residuale dalla data d'acquisto indicata sullo scontrino fiscale. Per alcune categorie di componenti (a titolo d'esempio non esaustivo: forcelle ROCK SHOX, deragliatori SRAM ...), Cicli Lombardo SpA può riservarsi la facoltà di far riconoscere la garanzia reclamata presso gli appositi centri autorizzati dal produttore. I seguenti particolari, essendo soggetti ad usura, non sono coperti da garanzia: pattini freno, cavi, guaine, lampadine, manopole, copertura sella, pedali, catene, ruote libere, decalcomanie, camere d'aria, valvole e coperture, corpetto cassetta ruota posteriore, cuscinetti e perni, parti in gomma soggette ad utilizzo continuo (es. tasto On/Off dei display, comandi dei remote dei display, ...). Fanno eccezione i fenomeni chiaramente imputabili a difetti di costruzione e/o materiale. Comportano la decadenza del diritto di garanzia: l'acquisto di prodotti usati, la negoziazione e la permuta tra privati, l'acquisto di prodotti presso centri non autorizzati; il naturale deterioramento della capacità di assorbimento della batteria (nel caso di e-bike), l'utilizzo di componenti esterne (es. centraline, acceleratori per e-bikes ...); l'apporto di modifiche strutturali al prodotto e l'alterazione del funzionamento e dell'estetica del veicolo; le riparazioni, le sostituzioni o gli smontaggi fai da te non monitorati dal rivenditore o autorizzati da Cicli Lombardo SpA; l'impiego dei prodotti fuori dalle normali condizioni d'uso; la negligenza dell'utilizzatore nella conservazione e manutenzione periodica del prodotto. Il veicolo non risulta coperto da garanzia nei seguenti casi: danni derivati da sinistri o dovuti ad incuria; manutenzione conseguente ad usura, fatta eccezione per fenomeni chiaramente imputabili a difetti di materiale e/o lavorazione; tutti i casi di rumorosità, vibrazioni e deterioramenti che non influenzano la funzionalità e la guidabilità del prodotto

3 YEARS WARRANTY

Lombardo Bikes dealers have customer satisfaction as their absolute priority, therefore they offer assistance, advice and proactive maintenance throughout the entire life cycle of the product. The images in this catalog are indicative. The Company reserves the rights to change colors and components at any time and without notice.

Cicli Lombardo S.p.A offers a 2 years (24 months) warranty for all its products since the date of delivery to the end customer (date of receipt) at one of the Lombardo authorized retailers. If the end customer is a commercial user (rental/sharing companies, courier services, VAT user ...) the warranty period is 6 months. It's possible to extend the warranty period of another year by signing up the product on the website www.lombardobikes.com within 15 days after the date of purchasing. The manufacturer is exonerated from any responsibility or obligation in case of accidents to persons or damages to objects that may occur during the use of the vehicle. Cicli Lombardo S.p.A can replace and/or repair for free, the unusable and inefficient components (or the entire product), upon a written request of the dealer where the bike has been purchased. If it is not possible to go to the original dealer, customer can ask to another authorized dealer in the same area by showing proof of purchase. In this case the dealer can request a refund for transport and labor costs. In case of recognized warranty assistance away from the national territory of purchasing, and in case of no possibility of resolving the complaint on site, the customer must pay the cost for sending the cycle to the authorized dealer where the product was purchased. Each request to the retailer must be accompanied by the presentation of the receipt or the warranty claim will be invalid. The acceptance of the guarantee of a component, or on the entire product, doesn't renew the coverage period: the deadline remains unchanged from the date of purchase indicated on the receipt. Concerning some categories of components (no-exhaustive example: ROCK SHOX forks, SRAM derailleurs...), Cicli Lombardo S.p.A. may reserve the right to recognize the claimed warranty in specialized centers by the manufacturer.

The following components are not covered by warranty because subjected to wear : brakes paddles, cables, cases, lights, grips, pedals, chains, freewheels, stickers, tires, tubes, valves, rubber parts of display (eg. On/Off button, remote controller buttons...), bushing, bearings and screws, bodyhub cassette of rear wheel. An exception to this could be all those cases that are clearly attributable to manufacturing and/or material defects. The warranty will be void under the following cases: the purchase of used products, negotiation and exchange between private parties, the purchase of products from unauthorized centers; the natural deterioration of the battery capacity (in case of e-bike), the use of external components (eg. control units , accelerators for e-bikes); structural changes and function and aesthetic modifications; fixing up, replacements or disassembling without the supervision of a Lombardo retailer or the authorization by Cicli Lombardo S.p.A.; the use of the product beyond normal conditions; user's carelessness in storing and ordinary maintenance of the product. The vehicle is not covered by warranty in the following cases: damages resulting from accidents or negligence; maintenance because of wear, except those cases clearly due to manufacturing and/or assembling defects; all noisy, tremblings and deterioration cases that do not influence the product functionality and riding.
